Confronting Managerialism offers a scathing critique of the influence of neoclassical economics and modern finance on business school teaching and management practice. Locke and Spender show that responsible management has given way to 'managerialism', whereby an elite caste of businessmen disconnected from any ethical considerations call the shots. The book traces the loss of managers' earlier social concerns, amply encouraged by management education's transformation since the 1960's, especially in the US. It also questions not only the social ethics of the US management caste but its management efficacy compared to systems of management that are highly employee participatory and dependent, such as in Germany and Japan. A unique, topical and controversial look at a subject that impacts us all.

From Saturday Night Fever to Jersey Shore, Italian American youth in New York City have appropriated—and been appropriated by—popular American culture. Here, Donald Tricarico investigates how Italian ethnicity has been used to fashion Guido as a distinct youth style that signals inclusion in popular American culture and, simultaneously, the making of a new ethnic subject. Emerging from a wave of Italian immigration after World War II in outer borough neighborhoods such as Bensonhurst, the story of the Guido is an Italian American story, symbolizing the negotiation of a negatively privileged ethnicity within American society. Tricarico takes up questions about the definition of Guido, the role of disco, and the identity politics of Jersey Shore in order to reconsider the significance of Guido for the study of Italian American ethnicity.
