The familiar yellow Technical Instruction series from Bosch have long proved one of their most popular instructional aids. They provide a clear and concise overview of the theory of operation, component design, model variations, and technical terminology for the entire Bosch product line, and give a solid foundation for better diagnostics and servicing. Clearly written and illustrated with photos, diagrams and charts, these books are equally at home in the vocational classroom, apprentice's toolkit, or enthusiast's fireside chair. If you own a car, especially a European one, you have Bosch components and systems. Covers: -System Overview -Helix and port controlled distributor injection pumps -Axial Piston Pump (VP29, VP30) -Radial Piston Pumps (VP44)

What's Wrong with My Car is a 168 pages EBook that contains a guide on how to determine the reason for your car problem and knowing what to do to fix it. This EBook is a compilation of problems and scenarios based on customer complain received by a mechanic every time customers visit a repair shop for help about their car trouble concern.

A widely known and recognized system of note taking is commonly taught to university students which is called the Cornell Note Taking Method. It is divided into two columns: the right column is for the note-taking, while the left one is for the questions and keywords. It's a perfect book for categorizing and putting your notes in order to make it more organized so it's easier to scan and review. With its note-organization feature, it is very popular to a lot of students and it can also be used for meetings, lectures, and so much more. Grab a copy now!

This book provides a wealth of detailed information that collectors,

investors, and restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagen. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.

Provides extensive information on state-of the art diesel fuel injection technology.

Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.
