Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

THE MODERN CARAVAN is a warm invitation into rolling homes designed for life on the open road. Brimming with evocative storytelling and hundreds of photographs showcasing handsome interiors and stunning landscapes, this book features 25 stories from solo travelers, couples, and families who traded the comforts of a rooted life for ever-changing vietas and eye-opening experiences. You'll meet a family exploring Australia in a cozy vintage camper filled with plants and natural wood finishes; a young couple designing a modern trailer inspired by the colors and textures of the high desert; a husband and wife living in a chic Airstream with green velvet seating, floral wallpaper, and herringbone wood floors. Balancing style with function, each carefully crafted tiny home is the result of long-held dreams, ingenuity, and imagination.

Buckle up as Douglas Keister takes you for a decidedly retro ride in the world of diminutive travel trailers in Teardrops and Tiny Trailers. The demand for vintage trailers-the smaller the better-has risen dramatically in recent years, with the most in-demand trailers being "teardrops," first manufactured in the 1930s and containing just indoor sleeping space and an outdoor exterior kitchen. Also profiled in the book are "canned ham" trailers, whose shape resembles the profile of a can of ham; small-size examples of America's most beloved vintage trailer, the Airstream; miniscule gypsy caravans in Europe; and fiberglass trailers made in Canada. Two hundred color photographs showcase these trailers' sleek exteriors, retro-styled interiors, and, in many cases, the restored classic cars that tow them. Teardrops and Tiny Trailers includes a resource section chock-full of places to locate vintage trailers, clubs to join, and rallies to attend. Photographer/writer Douglas Keister has authored thirty-six critically acclaimed books. His books on classic recreational vehicles include Ready to Roll, Silver Palaces, and Mobile Mansions. In addition, he has authored twenty-five books on architecture, including Inside the Bungalow, Storybook Style, Red Tile Style, Classic Cottages, and Cottages. Keister also writes and illustrates magazine articles and contributes photographs and essays to dozens of magazines, newspapers, books, calendars, posters, and greeting cards worldwide. He lives in Chico, California.

The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

The first book to focus on the vintage trailer as an object of design retraces the history of this American classic, discussing the role of World War II in trailer design and the impact of RV associations on the emergence of the "streamlined trailer." Original. 15,000 first printing.
