A review of the theoretical twists and turns in the development of the Heckscher-Ohlin model and an empirical assessment of the basic model and three related theorems. No names are more closely associated with modern trade theory than Eli Heckscher and Bertil Ohlin. The basic Heckscher-Ohlin proposition, according to which a country exports factors in abundant supply and imports factors in scarce supply, is a key component of modern trade theory. In this book, Robert Baldwin traces the development of the HO model, describing the historical twists and turns that have led to the basic modern theoretical model in use today. Baldwin not only presents a clear and cohesive view of the model's evolution but also reviews the results of empirical tests its various versions. Baldwin, who published his first theoretical article on the HO model in 1948, first surveys the development of the HO model and then assesses empirical tests of its predictions. Most discussions of empirical work on HO models confine themselves to the basic theorem, but Baldwin devotes a chapter to empirical tests of three related propositions: the Stolper-Samuelson theorem; the Rybczynski theorem; and the factor price equalization theorem. He concludes that the formulation and testing of these later models have improved economists' understanding of the forces shaping international trade, but that many empirical trade economists (himself included) were so enamored of the elegant but highly unrealistic factor price equalization models developed from the insights of Heckscher and Ohlin that they have neglected investigation of other models without this relationship.

A history of debates concerning the impact of technology on employment, and a description of the techniques used by economists in establishing a consensus opinion.

• 10 Sample Papers in each subject.5 solved & 5 Self-Assessment Papers. • Strictly as per the latest syllabus, blueprint & design of the question paper issued by Karnataka Secondary Education Examination Board (KSEEB) for PUC exam. • Latest Board Examination Paper with Board Model Answer • On-Tips Notes & Revision Notes for Quick Revision • Mind Maps for better learning • Board-specified typologies of questions for exam success • Perfect answers with Board Scheme of Valuation • Hand written Toppers Answers for exam-oriented preparation • Includes Solved Board Model Papers.
