"Ask The PPC Manager" showcases the Clicks to Money(TM) system - self-managing Google Ads that make as much money as possible, as fast as possible, for as long as possible, with as little work as possible, for months or years, without paying agency fees. It is the insider exposé which busts every myth going about Google Ads and the pay-per-click industry. "The world standard in Pay Per Click" - Perry Marshall, "Ultimate Guide to Google Ads" Money doesn't lie This view is largely heretical in the digital industry. But this is data, not opinion. And money doesn't lie. For the past 15 years, I've seen business owners and PPC Managers make little or no money from Google Ads. All you see is the money you spend, not the money you make. And some agencies charge a percentage of your ad spend, so they make money even if you don't. If this makes you feel angry and frustrated, this book is for you. "Google Ads helped us build, grow, and sell our company" "Ask The PPC Manager" is a real \$21.34m, 19X ROI, 15X business-growth-to-exit, ten year case study told in a fictional setting, inspired by "Built to Sell" by John Warrillow. The owner grew his business every year for ten years, hired more staff, increased his ad spend, bought out two competitors, and sold to an international operator. Could that be your business? "Your PPC campaigns are worthless" This is the story of a fictional airport transfer company and PPC Manager Charlie. The business is successful, but Charlie now has a problem, with responsibility for selling more seat bookings, making more money, and out-selling their rivals. He finds he has no idea how to build, measure, manage, and scale PPC campaigns, and integrate them into the business and finances to make money. He is on a deadline, realizes he needs help, and as the story unfolds he is given permission to hire an experienced consultant to turn the campaigns around. Clicks to Money Charlie finds Joshua, a Google Ads PPC author and consultant, who lays out an easy to follow plan that enables them to finally make money from their PPC campaigns and transform their business. Many PPC managers build their campaigns backwards. Campaigns actually come last. Your business is numbers. Your PPC campaigns are numbers. Making PPC make money is just math. The key is that the underlying principles behind self-managing PPC campaigns that make money meet three criteria: - It is a learnable skill. When properly understood, architected and built correctly, and with sufficient sales volumes, campaigns can become largely self-managing for months or even years - It makes money, delivering sales and revenue even while you sleep - It is repeatable and scalable, allowing your business to become "Fully Booked" should you choose, or to grow for as long as demand does Like Charlie, readers can apply the powerful PPC strategies in this book to finally make self-managing Google Ads campaigns which make money without them, and without agency fees. Here's the simple secret to making PPC make money - Track online conversions, sales and revenue - Know your business numbers - Target your buyers - Do the math Free PPC Money Audit(TM) If you qualify, you will also receive the FREE PPC Money Audit(TM) with the author. Many PPC managers offer free audits, but they only look at how your campaigns are spending money, not how they should be making money. One client wasted almost \$48,000 on mobile clicks with no sales, and was saving almost \$4,000 a month after the audit. If you hate paying Google, "Ask The PPC Manager" is your new 'must-read'. Scroll to the top and click the "Buy Now" button.

Stop counting clicks - start making money

Lots of books have been written about how to manage pay per click campaigns. This is not one of them. This book tells you how to avoid having to manage one, yet still get all the benefits of this powerful marketing tool. Pay Less Per Click is for people who want to succeed at search engine marketing without personally doing the hard work or spending a fortune on Internet marketing experts. This book gives you a good shortcut. Like all "good" shortcuts, our aim is to take you where you want to go without spending extra money or sacrificing results. For over 20 years I operated a full-service advertising agency. I worked with hundreds of clients and utilized about every kind of marketing tool you could imagine, from direct mail to television to outdoor to newsletters. At one time I had 10 employees. One day I put a client on Google Adwords_, those small, three-line text ads on search engines. You only pay when someone clicks to your website. Then I put another client on Google Adwords, then several more. Soon I realized that I was able to get far better results for my clients all by myself using Google Adwords than with all my employees using a full arsenal of marketing tools. I never looked back. While paying only when you get a click sounds good, the other side of that coin is that a click costs money. A click is not really a lead, it's just a visit to a website. I realized it would be great if there were a way to reduce clicks from less effective searches and focus on those keywords most likely to result in a lead. Then I discovered BlueRaptor, a technology that made it easy to put my advertisers not just on Google, but on all the major search engines with a single campaign. It also tracked actual leads! Not just clicks, but phone calls, email requests, downloadsany action taken by prospects! This was a major improvement! Since real leads could be tracked, it was also possible to see which keywords were producing leads! Ad dollars could be focused to give my advertisers their best possible return on investment. Not being a big risk taker when it comes to my clients' money, I gradually moved clients, one at a time, from my personal management of their Google Adwords campaign to BlueRaptor's computerized management system. Every one of my clients improved their resultsmost saw dramatic improvements. They got more clicks for their money; we could track results and we even got contact information for most all of the leads. You've probably never heard of BlueRaptor. But it's time you did. This guide will help you successfully utilize this incredible shortcut to pay per click advertising.

For the last couple of years, Google Adsense has dominated forums, discussions and newsletters all over the Internet. Already, there are tales of fabulous riches to be made and millions made by those who are just working from home. It seems that Google Adsense have already dominated the internet marketing business and is now considered the easiest way to making money online. The key to success with Adsense is the

placing of ads on pages that are receiving high traffic for high demand keywords. The higher the cost-per-click to the advertiser, the more you will receive per click from your site. Obviously, it does not pay to target low cost-per-click keywords and place them on pages that do not receive hits. With all the people getting online and clicking away every day, it is no wonder why Google AdSense has become an instant hit. For some who are just new to this market, it would be a blow to their pride knowing that their homepage is buried somewhere in the little ads promoting other people's services. But then, when they get the idea that they are actually earning more money that way, all doubts and skepticism is laid to rest. There are two major, and clever, factors that some successful webmaster and publishers are learning to blend together in order to make money easier using AdSense. 1. Targeting high traffic pages on your website. If you check on your logs, you will discover that many of your visitors are taking advantage of the free affiliate marketing resources and ebooks that you are offering on your site. In simple words, your ads are working effectively and are generating more clicks. It also means more money for you.2. Placing AdSense links on pages that are producing little, or better yet, no profit. By placing AdSense on a free resources page, you will reduce the amount of potential customers being lost to other sites. Tricky, but effective nonetheless. When learned to work effectively, these two factors are actually a good source of producing a minimal amount of revenue from a high traffic page. Many people are using this strategy to pick up some extra and cash with AdSense. This is also especially rewarding to informational sites that focus their efforts on delivering powerful affiliate link free content to their visitors. Now they can gain a monetary return on their services. With the many techniques that people are now learning on how to make the easiest money by their AdSense, it is not surprising that Google is trying everything to update and polish their AdSense in order to maintain their good image. The possibility of adding is 2nd tier in AdSense is not impossible. With all the people spending more time in their AdSense now and still more getting into this line of marketing, there is no doubt about the many new improvements yet to be made. Imagine the smiles on the faces of the webmasters and publishers all around the world if ever they sign up for sub-affiliates and double or even triple the amount that they are already earning. The one particularly handy money-making feature that is available with AdSense now is the ability to filter out up to 200 urls. These gives webmasters the option to block out low value offers from their pages as well as competitors to their websites. Talk about taking only those that are advantageous and discarding the ones that seem useless. With Google AdSense, the possibilities are limitless. Yet there is also the possibility of someone taking advantage of the easy money process that this internet marketing is doing. If you think more about it, these negative factors may force Google to break down and thrash AdSense in the process. If that happens, people would have to go back to the old ways of internet marketing that does not make money online as easy as AdSense. For now, however, Google AdSense is here to stay. As long as there are people wanting to earn some easy cash online just using their talents, the future ahead is looking good. Besides with all the strict guidelines that Google is enforcing over AdSense, it will take awhile for the AdSense privileges to be spammed and even terminated.
