A former Supreme Court clerk reveals the judicial institution's inner workings and decision making processes, offering a detailed portrait of justice corrupted by politics and unduly influenced by the power of personality.

The Last Gasp takes us to the dark side of human history in the first full chronicle of the gas chamber in the United States. In page-turning detail, award-winning writer Scott Christianson tells a dreadful story that is full of surprising and provocative new findings. First constructed in Nevada in 1924, the gas chamber, a method of killing sealed off and removed from the sight and hearing of witnesses, was originally touted as a "humane" method of execution. Delving into science, war, industry, medicine, law, and politics, Christianson overturns this mythology for good. He exposes the sinister links between corporations looking for profit, the military, and the first uses of the gas chamber after World War I. He explores little-known connections between the gas chamber and the eugenics movement. Perhaps most controversially, he has unearthed new evidence about American and German collaboration in the production and lethal use of hydrogen cyanide and about Hitler ' s adoption of gas chamber technology developed in the United States. More than a book about the death penalty, this compelling history ultimately reveals much about America ' s values and power structures in the twentieth century.

A former law clerk to the Supreme Court reveals how the Court decides its cases, offering a portrait of justice perverted by politics and unduly influenced by the power of anonymous clerks

Although not as glamorous as the Presidency and not as raucous as Congress, the Supreme Court quietly wields more power and influence over life in the United States than the other two combined. There is not a facet of life in the US that the Supreme Court is not called upon sooner or later to offer an opinion about. This bibliography gathers important literature about the Supreme Court and provides access through subject groupings as well as author and subject indexes. Contents: General; History; Separation of Powers; Constitutional Law; Freedom of Religion; Judicial Process; Civil Rights; Justices; Freedoms; Judicial Power and Indexes.

When the State Kills: Capital Punishment and the American Condition

"Based on exclusive interviews and access to the Supreme Court archives, this is the intimate, inspiring, and authoritative biography of America's first female Justice, Sandra Day O'Connor--by New York Times bestselling author Evan Thomas. She was born in 1930 in El Paso and grew up on a cattle ranch in Arizona. At a time when women were expected to be homemakers, she set her sights on Stanford University. When she graduated near the top of her class at law school in 1952, no firm would even interview her. But Sandra Day O'Connor's story is that of a woman who repeatedly shattered glass ceilings--doing so with a blend of grace, wisdom, humor, understatement, and cowgirl toughness. She became the first-ever female majority leader of a state senate. As a judge on the Arizona State Court of Appeals, she stood up to corrupt lawyers and humanized the law. When she arrived at the Supreme Court, appointed by Reagan in 1981, she began a quarter-century tenure on the court, hearing cases that ultimately shaped American law. Diagnosed with cancer at fifty-eight, and caring for a husband with Alzheimer's, O'Connor endured every difficulty with grit and poise. Women and men today will be inspired by how to be first in your own life, how to know when to fight and when to walk away, through O'Connor's example.

This is a remarkably vivid and personal portrait of a woman who loved her family and believed in serving her country, who, when she became the most powerful woman in America, built a bridge forward for the women who followed her"--

JAMES BEARD AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY VOGUE • NEW YORK TIMES BESTSELLER “ One of the great culinary stories of our time. ” —Dwight Garner, The New York Times It begins with a simple ritual: Every Saturday afternoon, a boy who loves to cook walks to his grandmother ’ s house and helps her prepare a roast chicken for dinner. The grandmother is Swedish, a retired domestic. The boy is Ethiopian and adopted, and he will grow up to become the world-renowned chef Marcus Samuelsson. This book is his love letter to food and family in all its manifestations. Yes, Chef chronicles Samuelsson ’ s journey, from his grandmother ’ s kitchen to his arrival in New York City, where his outsize talent and ambition finally come together at Aquavit, earning him a New York Times three-star rating at the age of twenty-four. But Samuelsson ’ s career of chasing flavors had only just begun—in the intervening years, there have been White House state dinners, career crises, reality show triumphs, and, most important, the opening of Red Rooster in Harlem. At Red Rooster, Samuelsson has fulfilled his dream of creating a truly diverse, multiracial dining room—a place where presidents rub elbows with jazz musicians, aspiring artists, and bus drivers. It is a place where an orphan from Ethiopia, raised in Sweden, living in America, can feel at home. Praise for Yes, Chef “ Such an interesting life, told with touching modesty and remarkable candor. ” —Ruth Reichl “ Marcus Samuelsson has an incomparable story, a quiet bravery, and a lyrical and discreetly glittering style—in the kitchen and on the page. I liked this book so very, very much. ” —Gabrielle Hamilton “ Plenty of celebrity chefs have a compelling story to tell, but none of them can top [this] one. ” —The Wall Street Journal “ Elegantly written . . . Samuelsson has the flavors of many countries in his blood. ” —The Boston Globe “ Red Rooster ’ s arrival in Harlem brought with it a chef who has reinvigorated and reimagined what it means to be American. In his famed dishes, and now in this memoir, Marcus Samuelsson tells a story that reaches past racial and national divides to the foundations of family, hope, and downright good food. ” —President Bill Clinton

The Ottoman Empire began in 1300 under the almost legendary Osman I, reached its apogee in the sixteenth century under Suleiman the Magnificent, whose forces threatened the gates of Vienna, and gradually diminished thereafter until Mehmed VI was sent into exile by Mustafa Kemal (Ataturk). In this definitive history of the Ottoman Empire, Lord Kinross, painstaking historian and superb writer, never loses sight of the larger issues, economic, political, and social. At the same time he delineates his characters with obvious zest, displaying them in all their extravagance, audacity and, sometimes, ruthlessness.

Written by former law clerks, legal scholars, biographers, historians, and political scientists, the essays in In Chambers tell the fascinating story of clerking at the Supreme Court. In addition to reflecting the personal experiences of the law clerks with their justices, the essays reveal how clerks are chosen, what tasks are assigned to them, and how the institution of clerking has evolved over time, from the first clerks in the late 1800s to the clerks of Justice Ruth Bader Ginsburg and Chief Justice William Rehnquist. In Chambers offers a variety of perspectives on the unique experience of Supreme Court clerks. Former law clerks—including Alan M. Dershowitz, Charles A. Reich, and J. Harvie Wilkinson III—write about their own clerkships, painting vivid and detailed pictures of their relationships with the justices, while other authors write about the various clerkships for a single justice, putting a justice's practice into a broader context. The book also includes essays about the first African American and first woman to hold clerkships. Sharing their insights, anecdotes, and experiences in a clear, accessible style, the contributors provide readers with a rare glimpse into the inner workings of the Supreme Court.
