Universities have been subjected to continuous government reforms since the 1980s, to make them 'entrepreneurial', 'efficient' and aligned to the predicted needs and challenges of a global knowledge economy. Under increasing pressure to pursue 'excellence' and 'innovation', many universities are struggling to maintain their traditional mission to be inclusive, improve social mobility and equality and act as the 'critic and conscience' of society. Drawing on a multi-disciplinary research project, University Reform, Globalisation and Europeanisation (URGE), this collection analyses the new landscapes of public universities emerging across Europe and the Asia-Pacific, and the different ways that academics

are engaging with them.

Serious games provide a unique opportunity to fully engage students more than traditional teaching approaches.

Understanding the best way to utilize these games and the concept of play in an educational setting is imperative for effectual learning in the 21st century. Gamification in Education: Breakthroughs in Research and Practice is an innovative reference source for the latest academic material on the different approaches and issues faced in integrating games within curriculums. Highlighting a range of topics, such as learning through play, virtual worlds, and educational computer games, this publication is ideally designed for educators, administrators, software designers, and

stakeholders in all levels of education.

This volume presents papers from the 10th Working Conference of the IFIP WG 8.6 on the adoption and diffusion of information systems and technologies. It explores the dynamics of how some technological innovation efforts succeed while others fail. The book looks to expand the research agenda, paying special attention to the areas of theoretical perspectives, methodologies, and organizational sectors.

Tiivistelmä: Matemaattisten uskomusten tutkimuksen nykytila : raportti MAVI-3 kokouksesta 23.-26.8.1996.
