A study of Mexico - political, social, cultural, economic - by a journalist who was for the past 6 years the NYT bureau chief in Mexico City. With portraits of Mexico's top leaders, about a nation whose stability is vital to our national well-being.

In its first seven years, the North American Free Trade Agreement (NAFTA) tripled trade and quintupled foreign investment among the U.S., Mexico, and Canada, increasing its share of the world economy. In 2001, however, North America peaked. Since then, trade has slowed among the three, manufacturing has shrunk, and illegal migration and drug-related violence have soared. At the same time, Europe caught up, and China leaped ahead. In *The North American Idea*, eminent scholar and policymaker Robert A. Pastor explains that NAFTA's mandate was too limited to address the new North American agenda. Instead of offering bold initiatives like a customs union to expand trade, leaders of the three nations thought small. Interest groups stalemated the small ideas while inhibiting the bolder proposals, and the governments accomplished almost nothing. To overcome this resistance and reinvigorate the continent, the leaders need to start with an idea based on a principle of interdependence. Pastor shows how this idea--once woven into the national consciousness of the three countries--could mobilize public support for continental solutions to problems like infrastructure and immigration that have confounded each nation working on its own. Providing essential historical context and challenging readers to view the continent in a new way, *The North American Idea* combines an expansive vision with a detailed blueprint for a more integrated, dynamic, and equitable North America.

Mexico's views of the United States have been characterized as stridently anti-American, but recent policy changes in Mexico mark a fundamental transformation in the relationship. This thoughtful and

Online Library Distant Neighbors A Portrait Of The Mexicans Alan Riding

original work answers questions about the impact of these policy shifts on Mexican nationalism and perceptions of the United States. As the only developing country to have entered into a free trade agreement (NAFTA) with a developed country, Mexico offers a unique and invaluable case study of the impact of globalization on a nation and its national identity. Exploring Mexico's experience also allows us to consider how other countries perceive the United States, especially in the post-9/11 climate. Analyzing the diversity of Mexican views of the United States, Gringolandia contributes a rich and nuanced dimension to our understanding of contemporary Mexico and Mexicans' feelings about the vital cross-border relationship.

An ambitious man and his adoring daughter are separated and estranged by an ocean and by the tides of history in this “ marvelous ” novel (Los Angeles Times). For Anna Schoene, growing up in the magical world of Shanghai in the 1930s creates a special bond between her and her father. He is the son of missionaries, a smuggler, and a millionaire who leads a charmed but secretive life. When the family flees to Los Angeles in the face of the Japanese occupation, he chooses to stay, believing his connections and luck will keep him safe. He ’ s wrong—but he survives, only to again choose Shanghai over his family during the Second World War. Anna and her father reconnect late in his life, when she finally has a family of her own, but it is only when she discovers his extensive journals that she is able to fully understand him and the reasons for his absences. The Distant Land of My Father is a “ beautiful ” novel “ for everyone who has ever felt himself in exile from any beloved place, or a time that can never return ” (The Washington Post Book World). “ Seamlessly weaves together Anna ’ s own memories with those of her father, gleaned from the journals . . . An elegant, refined story of families, wartime, and the mystique of memory. ” —Kirkus Reviews “ Vivid with details of prewar Shanghai and Los

Angeles. ” —Publishers Weekly “ Lush and epic. ” —San Jose Mercury News “ Remarkable . . . A moving tale of love and the possibility of forgiveness. ” —Library Journal

Examines the history and national characteristics of modern Mexico, discussing the contradictions of its politics, its complicated relationship with the United States, and its possible future direction. Reprint.

Through a series of poems, a young girl chronicles the life-changing year of 1975, when she, her mother, and her brothers leave Vietnam and resettle in Alabama.

Somewhere on the periphery of Seoul, between the modern metropolis and the traditional farming communities, lies a "distant and beautiful place," the neighborhood of Wonmi-dong. Here, a young couple from the city struggles to make a home for themselves; a hapless "salary man" is forced into door-to-door sales after losing his job; a precocious seven-year-old questions the meaning of friendship and community. Everyone seems to be chasing the intangible dream of a better life. Set against the backdrop of South Korea's breakneck drive for industrialization and economic development in the 1980s, these compassionate and often humorous stories capture the essence of modern South Korean life—including the ubiquitous atmosphere of violence and fear that clouded the country prior to democratization in 1987. They also depict the Korean people's unflinching optimism and love of life. *A Distant and Beautiful Place* first appeared as a series of linked stories in literary journals between 1985 and 1987. It was published as the collection *Wonmi-dong saramdul* in 1987 and quickly became a best seller. Yang

Kwija, one of South Korea's most respected and popular authors, has since published dozens of novels and shorter pieces.

INSTANT NEW YORK TIMES BESTSELLER Named A Most Anticipated Book of 2022 by *Marie Claire* *Washington Post* *Vulture* *NBC News* *Buzzfeed* *Veranda* *PopSugar* *Paste* *The Millions* *Bustle* *Crimereads* Goodreads* *Bookbub* *Boston.com* and more! "The thefts are engaging and surprising, and the narrative brims with international intrigue. Li, however, has delivered more than a straight thriller here, especially in the parts that depict the despair Will and his pals feel at being displaced, overlooked, underestimated and discriminated against. This is as much a novel as a reckoning." —New York Times Book Review Ocean's Eleven meets The Farewell in Portrait of a Thief, a lush, lyrical heist novel inspired by the true story of Chinese art vanishing from Western museums; about diaspora, the colonization of art, and the complexity of the Chinese American identity. History is told by the conquerors. Across the Western world, museums display the spoils of war, of conquest, of colonialism: priceless pieces of art looted from other countries, kept even now. Will Chen plans to steal them back. A senior at Harvard, Will fits comfortably in his carefully curated roles: a perfect student, an art history major and sometimes artist, the eldest son who has always been his parents' American Dream. But when a mysterious Chinese benefactor reaches out with an impossible—and illegal—job offer, Will finds himself something else as well: the leader of a heist to steal back five priceless Chinese sculptures, looted from Beijing centuries ago. His crew is every heist archetype one can imagine—or at least, the closest he can get. A con artist: Irene Chen, a public policy major at Duke who can talk her

Online Library Distant Neighbors A Portrait Of The Mexicans Alan Riding

way out of anything. A thief: Daniel Liang, a premed student with steady hands just as capable of lockpicking as suturing. A getaway driver: Lily Wu, an engineering major who races cars in her free time. A hacker: Alex Huang, an MIT dropout turned Silicon Valley software engineer. Each member of his crew has their own complicated relationship with China and the identity they've cultivated as Chinese Americans, but when Will asks, none of them can turn him down. Because if they succeed? They earn fifty million dollars—and a chance to make history. But if they fail, it will mean not just the loss of everything they've dreamed for themselves but yet another thwarted attempt to take back what colonialism has stolen. Equal parts beautiful, thoughtful, and thrilling, *Portrait of a Thief* is a cultural heist and an examination of Chinese American identity, as well as a necessary critique of the lingering effects of colonialism.
