This third, revised edition of Stan Grayson's classic history and appreciation of early gasoline marine engines contains several new appendixes, and an expanded list of U.S. and Canadian marine-engine builders -- 750 of them. Among several new chapters, there is a discussion of engine collecting and use that includes tips on propellers and matching engines and boats. This book is much more than lists and nuts and bolts, however. It is fascinating social history, an astute study of how these machines were created, tinkered with, used, cursed, and most recently collected -- and how they changed the small-boat world at the beginning of the twentieth century.

In this dazzling novel from New York Times bestselling author Hannah Howell, a beauty without means and a man without scruples strike a scandalous bargain that takes them into the heart of desire. . . No gentleman would guarantee a lady's safety in exchange for her virtue. But that is precisely why Cloud Ryder would never call himself a gentleman. He wants Emily Brockinger the moment he sets eyes on her, and volunteers to guide her and her ward through lawless Colorado territory--if she'll share his bed. Yet to his surprise, the delicate Boston blueblood has a grit and fire that thrill him as no woman ever has. . . Emily has no choice but to accept Cloud's terms, and no way to control her body's response to the virile, part-Cherokee drifter. The trail is strewn with obstacles, and the dangers only increase once they reach their destination. All his life, Cloud has shunned commitment, but now the only way to keep Emily safe is to open his heart--to the one woman with the passion and power to break it. . . "The superbly talented Howell never disappoints." --Romantic Times "The laughter mingles with the tears in any story from the talented pen of Hannah Howell. If you haven't read her before, start now!" --Affair de Coeur
