Cybercrime Case Presentation is a "first look" excerpt from Brett Shavers' new Syngress book, Placing the Suspect Behind the Keyboard. Case presentation requires the skills of a good forensic examiner and great public speaker in order to convey enough information to an audience for the audience to place the suspect behind the keyboard. Using a variety of visual aids, demonstrative methods, and analogies, investigators can effectively create an environment where the audience fully understands complex technical information and activity in a chronological fashion, as if they observed the case as it happened.

Examines the central role that auto production and consumption have played in the twentieth century: as a technological system with major impacts on public policy, land use, cultural patterns, social relations, community, natural resources, environmental quality, and options for spatial mobility.

Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggestthat his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In The Paths We Choose, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. Every day brings a new fork in the road, another path to choose

Peter Eicher's original archival research has unearthed remarkable and previously unavailable eye-witness accounts of major historic events, as described in extraordinary dispatches from American diplomats. Spanning the globe and the years from the American Revolution to the Vietnam War, "Emperor Dead" offers a fascinating window on two centuries of world history. Thomas Jefferson, Frederick Douglass, Nathaniel Hawthorne and hundreds of other one-time diplomats depict wars, revolutions, discoveries, royal courts, gold rushes, piracy, slavery, crime, earthquakes, volcanoes, and some very undiplomatic views of prominent historical figures. Every lover of history or travel will find something to enjoy in this unique compilation.
