Mastering the Nikon D850 by Darrell Young provides a wealth of experience-based information and insights for owners of the new D850 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment.

This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

The only complete guide to the six state parks and 15 coastal and riverside regional parks in one of the most rugged and beautiful regions of northern California: the magnificent Sonoma Coast and Russian River. The full range of outdoor adventures are described here, including hiking, camping, diving, whale/seal watching, and more. At Sonoma Coast State Park, explore miles of sandy beaches, isolated coves, and wildflower-covered trails. Watch for whales at Bodega Head. Visit Fort Ross State Historic Park, a Russian colonial outpost dating back to 1812. Free-dive for abalone at Salt Point State Park, site of strange sandstone sculptures and a rare pygmy forest. See the rhododendrons that bloom each spring at nearby Kruse Rhododendron Reserve, then turn inland to Armstrong Redwoods State Reserve, home to the last major stand of old-growth redwoods in Sonoma County. Detailed trail descriptions and trail maps along with a table of GPS waypoints for trail junctions and point of interest.

Precision agriculture is now 'main stream' in agriculture and is playing a key role as the industry comes to terms with the environment, market forces, quality requirements, traceability, vehicle guidance and crop management. Research continues to be necessary and needs to be reported and disseminated to a wide audience. This book contains peer reviewed papers presented at the 9th European Conference on Precision Agriculture, held in Lleida, Spain. The papers reflect the wide range of disciplines that impinge on precision agriculture: technology, crop science, soil science, agronomy, information technology, decision support, remote sensing and others. The broad range of research topics reported will be a valuable resource for researchers, advisors, teachers and professionals in agriculture long after the conference has finished.
