A Medal of Honor-awarded Marine sniper shares the controversy-marked story of his heroic contributions facing a 2009 Taliban ambush during which he saved a company of Afghan soldiers and Marine advisors, a victory that resulted from him disobeying orders and assuming command without reinforcements or artillery support. 45,000 first printing.

“ The story of what Dakota did . . . will be told for generations. ” —President Barack Obama, from remarks given at Meyer ’ s Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjigal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day, Meyer became the first living Marine in three decades to be awarded the Medal of Honor. Into the Fire tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer ’ s eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who ’ d been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, Into the Fire is the unvarnished story of a modern American hero. Praise for Into the Fire “ A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer ’ s courage. ” —National Review “ Meyer ’ s dazzling bravery wasn ’ t momentary or impulsive but deliberate and sustained. ” —The Wall Street Journal “ [A] cathartic, heartfelt account . . . Combat memoirs don ’ t get any more personal. ” —Kirkus Reviews “ A great contribution to the discussion of an agonizingly complex subject. ” —The Virginian-Pilot “ Black Hawk Down meets Lone Survivor. ” —Library Journal

“ Provocative, insightful, and enlightening—a foray into an often-neglected topic that merits more attention than it typically receives. ” --Lee Strobel, New York Times bestselling author of The Case for Christ What is Our Fascination with the Other Side? Join investigative reporter Billy Hallowell as he delves into the strange phenomena of supernatural activity. Themes of demonic possession, exorcism, and ghosts have overtaken Hollywood, with countless films and TV shows delving into the age-old struggle against evil. But the question is why? Even with so much focus on the topic, there seems to be very little public knowledge and discussion about the theology and real-life claims surrounding demons. Quite often, many people remain silent about their experiences or resort to quietly whispering about what they ’ ve seen, heard, or felt for fear of being labeled as crazy. The truth is, even pastors, priests, and clergy who have observed firsthand accounts of possession and deliverance can succumb to the strange and terrifying effects of intense spiritual warfare. For people of faith, Playing with Fire addresses these core questions: Are demons active today? If they do indeed exist, what are they? Fallen angels? Nephilim? Can demons inhabit human beings? According to the Bible, can people die and remain behind as “ ghosts ” ? Playing with Fire explores the theological underpinnings surrounding the supernatural. Relying on firsthand accounts, newspaper reports, and Christian experts, Hallowell takes readers through the various views and perspectives surrounding supernatural activity.

Early morning on Monday, October 9, 2017, wildfires burned through Northern California, resulting in 44 fatalities. In addition, 6,200 homes and 8,900 structures and were destroyed. Author Brian Fies ’ s firsthand account of this tragic event is an honest, unflinching depiction of his personal experiences, including losing his house and every possession he and his wife had that didn ’ t fit into the back of their car. In the days that followed, as the fires continued to burn through the area, Brian hastily pulled together A Fire Story and posted it online—and it immediately went viral. He expanded his original web comic to include environmental insight and the fire stories of his neighbors and others in his community. This paperback version includes 32 new pages that bring the story up-to-date. A Fire Story is a candid testimony of the wildfires that left homes destroyed, families broken, and a community determined to rebuild.

the loneliest-seeming corners of the crowded city. And when the blackout of July 13, 1977, plunges this world into darkness, each of these lives will be changed forever. *City on Fire* is an unforgettable novel about love and betrayal and forgiveness, about art and truth and rock ' n ' roll: about what people need from each other in order to live . . . and about what makes the living worth doing in the first place.

The political activism of the American counterculture during the 1960s remains a subject blighted by misconceptions and stereotypes. To many, the political thought of the 1960s is synonymous with widespread drug abuse, failed social experiments, and general irresponsibility. Despite sustained public interest, few remember that many of the freedoms and rights Americans enjoy today are the direct result of those who defiantly challenged the established order during this tumultuous period. The period frightened both mainstream and elite Americans and still does. In *Generation on Fire*, both well-known and overlooked political activists speak about their motives and actions during the 1960s through the present. Journalist and popular oral historian Jeff Kisseloff provides a broad and eclectic account of the political activity of the decade, as told by those individuals who led the resistance on numerous fronts: civil rights, the antiwar movement, women's liberation, the environmental movement, and gay rights. The book offers firsthand accounts of what it was like in the courtroom with the Chicago Eight, the trenches of the national football league, the jungles of Vietnam, a commune in Vermont and on a stage in Woodstock. Including never-before published interviews, *Generation on Fire* unapologetically contextualizes the world of the 1960s -- illuminating the ingrained social and cultural obstacles facing activists as well as the courage and shortcomings of those who defied "acceptable" conventions and mores. *Generation on Fire* is an invaluable resource for all who wish to understand the dramatic social, cultural, and political conflicts that arose during a period of radical change. Interviews with: Peter Berg, Rev. Daniel Berrigan, David Cline, Frank Kameny, Paul Krassner, Bernard Lafayette, Barry Levine-Doris Krause, David Meggysey, Barry Melton, Verandah Porche, Gloria Dandridge Richardson, Elsa Marley Skylark, Marilyn Webb, Lee Weiner, and Bob Zellner

An account of the Great Chicago Fire combines archival photographs and drawings with personal accounts by its survivors and historical documents.

The youngest living Medal of Honor recipient delivers an unforgettable memoir that "will inspire every reader " (Jim Mattis) NATIONAL BESTSELLER: A USA Today, Washington Post, and Publishers Weekly bestseller On November 21, 2010, U.S. Marine Lance Corporal Kyle Carpenter was posted atop a building in violent Helmand Province, Afghanistan, when an enemy grenade skittered toward Kyle and fellow Marine Nick Eufrazio. Without hesitation, Kyle chose a path of selfless heroism that few can imagine. He jumped on the grenade, saving Nick but sacrificing himself. One of the year ' s most anticipated books, Kyle ' s remarkable memoir reveals a central truth that will inspire every reader: Life is worth everything we ' ve got. It is the story of how one man became a so-called hero who willingly laid down his life for his brother-in-arms—and equally, it is a story of rebirth, of how Kyle battled back from the gravest challenge to forge a life of joyful purpose. Kyle Carpenter ' s heart flatlined three times while being evacuated off the battlefield in Afghanistan. Yet his spirit was unbroken. Severely wounded

from head to toe, Kyle lost his right eye as well as most of his jaw. It would take dozens of surgeries and almost three years in and out of the hospital to reconstruct his body. From there, he began the process of rebuilding his life. What he has accomplished in the last nine years is extraordinary: he 's come back a stronger, better, wiser person. In 2014, Kyle was awarded the nation 's highest military decoration, the Medal of Honor, for his "singular act of courage" on that rooftop in Afghanistan, an action which had been reviewed exhaustively by the military. Kyle became the youngest living recipient of the award – and only the second living Marine so honored since Vietnam. You Are Worth It is a memoir about the war in Afghanistan and Kyle 's heroics, and it is also a manual for living. Organized around the credos that have guided Kyle 's life (from "Don 't Hide Your Scars" to "Call Your Mom"), the book encourages us to become our best selves in the time we 've been given on earth. Above all, it 's about finding purpose, regardless of the hurdles that may block our way. Moving and unforgettable, You Are Worth It is an astonishing memoir from one of our most extraordinary young leaders.

"The definitive firsthand account of California's Camp Fire-the nation's deadliest wildfire in a century-and a riveting examination of what went wrong and how to avert future tragedies as the climate crisis unfolds. On November 8, 2018, the people of Paradise, California, awoke to a mottled gray sky and gusty winds. Soon the Camp Fire was upon them, gobbling an acre a second. Less than two hours after the fire ignited, the town was engulfed in flames, the residents trapped in their homes and cars. By the next morning, eighty-five people were dead. San Francisco Chronicle reporter Lizzie Johnson was there as the town of Paradise burned. She saw the smoldering rubble of a historic covered bridge and the beloved Black Bear Diner and she stayed long afterward, visiting shelters, hotels, and makeshift camps. Drawing on years of on-the-ground reporting and reams of public records, including 911 calls and testimony from a grand jury investigation, Johnson provides a minute-by-minute account of the Camp Fire, following residents and first responders as they fight to save themselves and their town. We see a young mother fleeing with her newborn; a school bus full of children in search of an escape route; and a group of paramedics, patients, and nurses trapped in a cul-de-sac, fending off the fire with rakes and hoses. Johnson documents the unfolding tragedy with empathy and nuance. But she also investigates the root causes, from runaway climate change to a deeply flawed alert system to Pacific Gas and Electric's decades-long neglect of critical infrastructure. A cautionary tale for a new era of megafires, Paradise is the gripping story of a town wiped off the map and the determination of its people to rise again"--
