articles including first-time Article 399 on Outdoor, Overhead Conductors with over 600 volts, first-time Article 694 on Small Wind Electric Systems, first-time Article 840 on Premises Powered Broadband Communications Systems, and more. This spiralbound version allows users to open the code to a certain page and easily keep the book open while referencing that page. The National Electrical Code is adopted in all 50 states, and is an essential reference for those in or entering careers in electrical design, installation, inspection, and safety.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The “ Organ Systems Overview ” dissection exercise includes instruction on both rat and human dissection. Color photographs of rat and human dissection views further

Understanding Chinese politics has become more important than ever. Some argue that China's political system is 'institutionalized' or that 'win all/lose all' struggles are a thing of the past, but, Joseph Fewsmith argues, as in all Leninist systems, political power is difficult to pass on from one leader to the next. Indeed, each new leader must deploy whatever resources he has to gain control over critical positions and thus consolidate power. Fewsmith traces four decades of elite politics from Deng to Xi, showing how each leader has built power (or not). He shows how the structure of politics in China has set the stage for intense and sometimes violent intra-elite struggles, shaping a hierarchy in which one person tends to dominate, and, ironically, providing for periods of stability between intervals of contention.

Winner of the National Book Critics Circle Award Winner of the Heartland Prize A New York Times Notable Book One of the Best Books of the Year: The Washington Post, Los Angeles Times, Time, Vanity Fair, Marie Claire, Time Out New York, Minneapolis Star Tribune, Kansas City Star, Men's Journal, Oprah.com Pulitzer Prize-winning cultural critic Margo Jefferson was born in 1947 into upper-crust black Chicago. Her father was head of pediatrics at Provident Hospital, while her mother was a socialite. In these pages, Jefferson takes us into this insular and discerning society: "I call it Negroland," she writes, "because I still find 'Negro' a word of wonders, glorious and terrible." Negroland's pedigree dates back generations, having originated with antebellum free blacks who made their fortunes among the plantations of the South. It evolved into a world of exclusive sororities, fraternities, networks, and clubs--a world in which skin color and hair texture were relentlessly evaluated alongside scholarly and professional achievements, where

the Talented Tenth positioned themselves as a third race between whites and "the masses of Negroes," and where the motto was "Achievement. Invulnerability. Comportment." At once incendiary and icy, mischievous and provocative, celebratory and elegiac, *Negroland* is a landmark work on privilege, discrimination, and the fallacy of post-racial America.

A sociologist and former fashion model takes readers inside the elite global party circuit of "models and bottles" to reveal how beautiful young women are used to boost the status of men Million-dollar birthday parties, megayachts on the French Riviera, and \$40,000 bottles of champagne. In today's New Gilded Age, the world's moneyed classes have taken conspicuous consumption to new extremes. In *Very Important People*, sociologist, author, and former fashion model Ashley Mears takes readers inside the exclusive global nightclub and party circuit—from New York City and the Hamptons to Miami and Saint-Tropez—to reveal the intricate economy of beauty, status, and money that lies behind these spectacular displays of wealth and leisure. Mears spent eighteen months in this world of "models and bottles" to write this captivating, sometimes funny, sometimes heartbreaking narrative. She describes how clubs and restaurants pay promoters to recruit beautiful young women to their venues in order to attract men and get them to spend huge sums in the ritual of bottle service. These "girls" enhance the status of the men and enrich club owners, exchanging their bodily capital for as little as free drinks and a chance to party with men who are rich or aspire to be. Though they are priceless assets in the party circuit, these women are regarded as worthless as long-term relationship prospects, and their bodies are constantly assessed against men's money. A story of extreme gender

Home to Jamestown, the first permanent English settlement in the New World, Virginia is in many ways the birthplace of America and the home of U.S. history. It is also literally the birthplace of eight presidents and numerous Revolutionary and Civil War heroes. Virginia was among the wealthiest southern states in the antebellum period, resulting in a long tradition of stately homes on luxuriant plantations. In addition to their elegant architecture and classic southern styling, these homes feature some of the most extravagant and noteworthy gardens on the eastern seaboard. From the James River Plantations to the Shenandoah foothills, Virginia ' s Historic Homes and Gardens celebrates the legendary houses and landscapes of Old Dominion. Virginia natives, the authors travel throughout the state to highlight the best of the famous and lesser-known homes. Including such national landmarks as George Washington ' s Mount Vernon and Thomas Jefferson ' s Monticello, the book brilliantly illustrates the homes ' exteriors and interiors as well as their gardens and landscaping. Historical details accompany the exquisite color photographs, along with useful information on each site ' s location.
