The Spiderwick Chronicles leave the old-fashioned charm of New England far behind and head south for some fiendish faerie fun in the hot Florida sun. Eleven-year-old Nicholas Vargas only thinks his life has been turned upside down after his developer father remarries and moves his new wife and daughter into the soon-to-be completed Mangrove Hollow. But an "expedition" to a nearby lake turns up a little nixie with a giant problem - the huge, lumbering, fire-breathing variety - and it's up to Nick; his stepsister, Laurie; and his big brother, Julian (plus a familiar face from the original Spiderwick Chronicles) to figure out the best way to stop a host of rampaging giants before all of Florida goes up in smoke.

Talk about out of the frying pan, into the fire! I was pretty sure that my freaky stepsister and that freaky field guide of hers would ruin my life. But now it looks like they're going to ruin all of Florida, too! Okay, maybe that's not fair. Maybe all these stupid giants would be waking up anyway, but if it wasn't for her and that book, I'd be home playing video games and this would be someone else's giant problem!
