A notary is a public official responsible for independently verifying signatures and oaths.

Depending on how a document is

File Type PDF Notary Journal

written, a
notarization serves
to affirm the
identity of a signer
and the fact that
they personally
executed their
signature. A
notarization, or
notarial act,
officially
documents the
identity of a party
to a document or

transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their

Signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or

testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

The office of notary public has a long and proud history in our society. Their work is rarely
