The electromagnetic force (or electromagnetism) is one of the four fundamental forces in nature. The electromagnetic force manifests itself through the forces between charges (Coulomb's law) and the magnetic force, both of which are summarised by the Lorentz force law.Fundamentally, both magnetic and electric forces are manifestations of an exchange of photons.

Solution: The best solution to resolve cable and wire problems is by repairs. However, this may not be a permanent solution and as such, you should consider buying a new cable altogether so as to avoid more problems in the future. 10: Problem: Faulty Spark Plug: The spark plugs are essential for ignition and seem to be quite busy.
