ESPORRE ALLESTIRE VENDERE è una guida per la progettazione di spazi espositivi e commerciali; il volume presenta soluzioni progettuali e strategie espositive strettamente legate alla comunicazione e al marketing. Il volume illustra, a scala generale e in dettaglio, la struttura concettuale e organizzativa degli spazi destinati a mostre temporanee fiere ed eventi. L'architettura dei punti vendita dall'organizzazione del punto vendita, alle aspettative del consumatore, fino al concept store richiede una progettazione attenta ad interpretare le esigenze di committenti e consumatori e a creare nuovi spazi e nuovi concept di locali commerciali. In particolare, nella prima parte del volume, si spazia dai temi dell'esposizione a quelli dell'informazione e della comunicazione, dai problemi di immagine a quelli legati all'informazione multimediale che non può più prescindere da temi di marketing e di gestione mirata delle risorse. Completano il testo i principali riferimenti alla normativa tecnica di settore, visti all'interno di linee-guida specifiche per il settore espositivo. La seconda parte, tratta invece dell'architettura per i luoghi del commercio: l'organizzazione del vendere, le aspettative del consumatore, i significati legati allo shopping, hanno infatti indirizzato l'architettura dei punti vendita a profondi cambiamenti, che il testo analizza dal punto di vista dei criteri e dei metodi utili per il progetto. Il volume è arricchito da un CD in cui si trovano 22 Casi di studio applicativi e una ricca galleria di immagini che rendono il testo unico nel suo genere ed un pratico strumento di riferimento per i professionisti che operano in questo settore.
