I've been a fan of
Shadowrun since it
was released, and

Online Library Shadowrun 4th

played it up through third edition. It is one of my favorite gaming and sci-fi/fantasy settings. However, I just do not like what they did to the rules or the setting with 4th edition. I wanted to like it, but just couldn't. I'll be sticking with third edition it looks like.

The critters were designed with both players and GMs in mind - they can be added as a resource for players to use or obstacles to overcome. The critters also have plot hooks built in to fuel plenty of adventures and campaigns. With full color art, this book displays the
