Continues the story of the last days British rule in India in the early 1940's.

In *The Day of the Scorpion*, Scott draws us deeper in to his epic of India at the close of World War II. With force and subtlety, he recreates both private ambition and perversity, and the politics of an entire subcontinent at a turning point in history. As the scorpion, encircled by a ring of fire, will sting itself to death, so does the British raj hasten its own destruction when threatened by the flames of Indian independence. Brutal repression and imprisonment of India's leaders cannot still the cry for home rule. And in the midst of chaos, the English Laytons withdraw from a world they no longer know to seek solace in denial, drink, and madness.

Four novels covering the period between the Quit India riots of 1942 and the massacres that accompanied independence and partition in 1947 provide insight into the closing years of British rule in India

Paul Scott's epic study of British India in its final years has no equal. Tolstoyan in scope and Proustian in detail but completely individual in effect, it records the encounter between East and West through the experiences of a dozen people caught up in the upheavals of the Second World War and the growing campaign for Indian independence. Book one, *The Jewel in the Crown*, describes the doomed love between an English girl and an Indian boy, Daphne Manners and Hari Kumar. This affair touches the lives of other characters in three subsequent books, most of them unknown to Hari and Daphne but involved in the larger social and political conflicts which destroy the lovers. On occasions unsparing in its study of personal dramas and racial differences, the *Raj Quartet* is at all times profoundly humane, not least in the author's capacity to identify with a huge range of characters. It is also illuminated by delicate social comedy and wonderful evocations of the Indian scene, all narrated in luminous prose.

In August of 1942, a young Englishwoman is raped in an Indian garden, and her fate and that of an elderly English school teacher entwine.

The towers of silence : Follows the decline of Barbie Batchelor, a one-time mission-school teacher, as the Anglo-Indian world begins to collapse around her.

Against the backdrop of the violent partition of India and Pakistan, this volume sketches one last bittersweet romance, revealing the divided loyalties of the British as they flee, retreat from, or cling to India.

In this sequel to *The Raj Quartet*, Colonel Tusker and Lucy Smalley stay on in the hills of Pankot after Indian independence deprives them of their colonial status. Finally fed up with accommodating her husband, Lucy claims a degree of independence herself. Eloquent and hilarious, she and Tusker act out class tensions among the British of the Raj and give voice to the loneliness, rage, and stubborn affection in their marriage. *Staying On* won the Booker Prize in 1977 and was made into a motion picture starring Trevor Howard and Celia Johnson in 1979. "Staying On far transcends the events of its central action. . . . [The work] should help win for Scott . . . the reputation he deserves—as one of the best novelists to emerge from Britain's silver age."—Robert Towers, *Newsweek* "Scott's vision is both precise and painterly. Like an engraver cross-hatching in the illusion of fullness, he selects nuances that will make his characters take on depth and poignancy."—Jean G. Zorn, *New York Times Book Review* "A graceful comic coda to the earlier song of India. . . . No one writing knows or can evoke an Anglo-Indian setting better than Scott."—Paul Gray, *Time* "Staying On provides a sort of postscript to [Scott's] deservedly acclaimed *The Raj Quartet*. . . . He has, as it were, summoned up the Raj's ghost in *Staying On*. . . . It is the story of the living death, in retirement, and the final end of a walk-on character from the quartet. . . . Scott has completed the task of covering in the form of a fictional narrative the events leading up to India's partition and the achievement of independence in 1947. It is, on any showing, a creditable achievement."—Malcolm Muggeridge, *New York Times Book Review*
