Legendary musician Peter Hook tells the whole story - the fun, the music, the vast loss of money, the legacy - of Manchester’s most iconic nightclub Peter Hook, as co-founder of Joy Division and New Order, has been shaping the course of popular music for thirty years. He provided the propulsive bass guitar melodies of ‘Love Will Tear Us Apart’ and the bestselling 12-inch single ever, ‘Blue Monday’ among many other songs. As co-owner of Manchester’s Hacienda club, Hook propelled the rise of acid house in the late 1980s, then suffered through its violent fall in the 1990s as gangs, drugs, greed and a hostile police force destroyed everything he and his friends had created. This is his memory of that era and it’s far sadder, funnier, scarier and stranger’ than anyone has imagined. As young and naive musicians, the members of New Order were thrilled when their record label Factory opened a club. Yet as their career escalated, they toured the world and had top ten hits, their royalties were being ploughed into the Hacienda and they were only being paid £20 per week. Peter Hook looked back at that exciting and hilarious time to write HACIENDA. All the main characters appear - Tony Wilson, Barney, Shaun Ryder - and Hook tells it like it was - a rollercoaster of success, money, confusion and true faith.

Includes full set lists not included in the physical edition. In this final installment of his internationally bestselling three-part memoir—including The Hacienda and Unknown Pleasures—British rocker Peter Hook focuses on the 1980s New Wave and Dance Punk scene and the rise of one of the most influential bands of the Second British Invasion: New Order. 1980. Resurrected from the ashes of Joy Division after the suicide of its lead singer, Ian Curtis, New Order would become one most critically acclaimed and important bands of the decade and beyond. With their hits ‘Bizarre Love Triangle’, ‘Perfect Kiss’, and ‘Blue Monday’—the biggest-selling 12-inch single of all time—Peter Hook and company quickly rose to the top of the alternative music scene. Widely regarded as the godfathers of electronic dance music, their sound would influence Moby, The Chemical Brothers, The Postal Service, The Killers, and other acts that followed in their wake. Hook tells the complete, unvarnished story of New Order ’ s founding and evolution; the band ’ s experiences in the New York City club scene and rapid rise to international fame, its impact on house music, techno, and rave; and its eventual rancorous dissolution. Full of Hook ’ s ‘gleefully profane’ (Entertainment Weekly) humor and vivid, witty storytelling, Substance is the most important and certainly the most controversial part of his story, emanating with drugs, booze, and sex. Complete with timelines, discographies, gigographies and track-by-track analysis, and exclusive photographs and archival images from Hook ’ s personal collection, it is the definitive, comprehensive history of New Order and a compelling snapshot of the ‘80s cultural scene in all its neon-tued glory.

From the colonial period through the mid-twentieth century, haciendas dominated the Latin American countryside. In the Ecuadorian Andes, Runa—Quichua-speaking indigenous people—worked on these large agrarian estates as virtual serfs. In Remembering the Hacienda: Religion, Authority, and Social Change in Highland Ecuador, Barry Lyons probes the workings of power on haciendas and explores the hacienda’s contemporary legacy. Lyons lived for three years in a Runa village and conducted in-depth interviews with elderly former hacienda laborers. He combines their wrenching accounts with archival evidence to paint an astonishing portrait of daily life on haciendas. Lyons also develops an innovative analysis of hacienda discipline and authority relations. Remembering the Hacienda explains the role of religion as well as the reshaping of Runa culture and identity under the impact of land reform and liberation theology. This beautifully written book is a major contribution to the understanding of social control and domination. It will be valuable reading for a broad audience in anthropology, history, Latin American studies, and religious studies.

Bernard Sumner pioneered the post-punk movement when he broke onto the scene as a founding member of Joy Division, and later as the front man of New Order. Heavily influencing U2 and The Cure while paving the way for post-punk revivalists like Interpol, Sumner’s has left an indelible mark on punk and rock music that endures to this day. Famously reluctant to speak out, for the first time Sumner tell his story, a vivid and illuminating account of his childhood in Manchester, the early days of Joy Division, and the bands subsequent critical and popular successes. Sumner recounts Ian Curtis’ tragic death on the eve of the band’s first American tour, the formation of breakout band New Order, and his own first-hand account of the ecstasy and the agony of the 1970s Manchester music scene. Witty, fascinating and surprisingly moving, Chapter and Verse is an account of insights and spectacular personal revelations, including an appendix containing a complete transcript of a recording made of Ian Curtis experiencing hypnotic regression under the Sumner’s amateur guidance and tensions between himself and former band member Peter Hook.

‘Genuinely funny; indeed, the story will... keep you entertained for a very long time’ Sunday Times
Joy Division changed the face of music. Godfathers of the current alternative scene, they reinvented rock in the post-punk era, creating a new sound - dark, hypnotic, intense - that would influence U2, Morrissey, R.E.M., Radiohead and many others. This is the story of Joy Division told by the band’s legendary bassist, Peter Hook. ‘Hook has restored a flesh-and-blood rawness to what was becoming a standard tale. Few pop music books manage that’Guardian
‘An honest, enthusiastic account ... It’s a window like no other into the reality of life in this most aloof of bands’ METRO
‘An immense account of Joy Division’s rise...Having read Hook’s book, you’ll feel like you were the fifth member of the band’ GQ
‘A bittersweet, profanity filled recollection... If you like Joy Division, you really have to read it’ Q Magazine
‘Hook lifts the lid on the real Ian Curtis’ NME
‘He’s frank, incredibly funny, and isn’t shy’Attrocker

The Mexican Revolution was a tumultuous struggle for social and political reform that ousted an autocrat and paved the way for a new national constitution. The conflict, however, came late to Yucatán, where a network of elite families with largely European roots held the reins of government. This privileged group reaped spectacular wealth from haciendas, cash-crop plantations tended by debt-ridden servants of Maya descent. When a revolutionary army from central Mexico finally gained a foothold in Yucatán in 1915, the local custom of agrarian servitude met its demise. Drawing on a dozen years of archaeological and historical investigation, Allan Meyers breaks new ground in the study of Yucatán haciendas. He explores a plantation village called San Juan Bautista Tabi, which once stood at the heart of a vast sugar estate. Occupied for only a few generations, the village was abandoned during the revolutionary upheaval. Its ruins now lie within a state-owned ecological reserve. Through oral histories, archival records, and physical remains, Meyers examines various facets of the plantation landscape. He presents original data and fresh interpretations on settlement organization, social stratification, and spatial relationships. His systematic approach to “things underfoot,” small everyday objects that are now buried in the tropical forest, offers views of the hacienda experience that are often missing in official written sources. In this way, he raises the voices of rural, mostly illiterate Maya speakers who toiled as laborers. What emerges is a portrait of hacienda social life that transcends depictions gleaned from historical methods alone. Students, researchers, and travelers to Mexico will all find something of interest in Meyers’s lively presentation. Readers will see the old haciendas—once forsaken but now experiencing a rebirth as tourist destinations—in a new light. These heritage sites not only testify to social conditions that prevailed before the Mexican Revolution, but also remind us that the human geography of modern Yucatán is as much a product of plantation times as it is of more ancient periods. E

In 1978, a ‘Factory for Sale’ sign gave Alan Erasmus and Tony Wilson a name for their fledgling Manchester club night. Though they couldn’t have known it at the time, this was the launch of one of the most significant musical and cultural legacies of the late twentieth century. The club’s electrifying live scene soon translated to vinyl, and Factory Records went on to become the most innovative and celebrated record label of the next thirty years. Always breaking new musical ground, Factory introduced the listening public to bands such as Joy Division, whose Unknown Pleasures was the label’s first album release, New Order, Durutti Column and Happy Mondays. Propelled onwards by the inspirational cultural entrepreneur, Tony Wilson, Factory always sought new ways to engerise the popular consciousness, such as the infamous Hacienda nightclub, which enjoyed a chequered 15-year history after opening in 1982. Shadowplayers is the most complete, authoritative and thoroughly researched account of how a group of provincial anarchists and entrepreneurs saw off bankers, journalists and gun-toting gangsters to create the most influential record label of modern times. Based on both archive and contemporary sources, the book tells the full story of Factory’s heroic struggles, its complex web of inventive, idiosyncratic and tragic personalities, and ultimately, the acclaimed and much-loved music it produced.

Stepped in the chaotic swirl of the Manchester music scene, David Nolan is the critically acclaimed author of Bernard Sumner: Confusion and I Swear I Was There: The Gig That Changed The World. He’s also an award-winning former Granada TV producer with 150 television credits to his name including documentaries on the Sex Pistols, The Smiths and Echo and the Bunnymen.

One of the New York Times’ ‘20 Books to Read in 2020’
“A tonic . . . Splendid . . . A respite . . . A summer cocktail of a book. ” —Washington Post
“ Unforgettable . . . Behind her brilliantly witty and uplifting message is a remarkable vulnerability and candor that reminds us that we are not alone in our struggles—and that we can, against all odds, get through them. ” —Lori Gottlieb, New York Times best-selling author of Maybe You Should Talk to Someone
Part memoir and part joyful romp through the fields of imagination, the story behind a beloved pseudonymous Twitter account reveals how a writer deep in grief rebuilt a life worth living. Becoming Duchess Goldblatt is two stories: that of the reclusive real-life writer who created a fictional character out of loneliness and thin air, and that of the magical Duchess Goldblatt herself, a bright light in the darkness of social media. Fans around the world are drawn to Her Grace ’ s voice, her wit, her life-affirming love for all humanity, and the fun and friendship of the community that ’ s sprung up around her. @DuchessGoldblat (81 year-old literary icon, author of An Axe to Grind) brought people together in her name: in bookstores, museums, concerts, and coffee shops, and along the way, brought real friends home—foremost among them, Lyle Lovett. “ The only way to be reliably sure that the hero gets the girl at the end of the story is to be both the hero and the girl yourself. ” — Duchess Goldblat

The musicians own everything. The company owns nothing...The Factory non-contract set out the manifesto for one of the most influential record labels. Manchester, 1976: Anthony Wilson, Granada TV presenter, is at an early Sex Pistols gig. Inspired by this moment, he and his friends set up Factory Records. They go on to conquer the world.
