The Postmodern Condition: A Report on Knowledge (French: La condition postmoderne: rapport sur le savoir) is a 1979 book by the philosopher Jean-François Lyotard, in which the author analyzes the notion of knowledge in postmodern society as the end of 'grand narratives' or metanarratives, which he considers a quintessential feature of modernity. Lyotard introduced the term 'postmodernism', which was previously only used by art critics, into philosophy and social sciences, with the following ...

The Postmodern Condition: A Report on Knowledge Background ...

Postmodernity is the economic or cultural state or condition of society which is said to exist after modernity. Some schools of thought hold that modernity ended in the late 20th century – in the 1980s or early 1990s – and that it was replaced by postmodernity, and still others would extend modernity to cover the developments denoted by postmodernity, while some believe that modernity ended after World War II. The idea of the post-modern condition is sometimes characterized as a culture ...

In the postmodern condition, the aim to rid of the project of Enlightenment, which modernity thrives on. b. Habermas sees this as negative because he sees emancipatory facets within Enlightenment ideologies.

Lyotard notes - Summary The Postmodern Condition : A ...

The Postmodern Condition is about the dominance of scientific knowledge over that of narrative, and the related death of meta-narratives. The performativity principle underlined by late capitalism plays a crucial role in the subordination of the narrative form simply because narration is not instrumental in creating capital.
