The pages of this book

discuss the similarities in purpose and design between the redemptive work of Jesus Christ, Christian living, and the Tabernacle of Sinai. It carefully details the seven steps of Tabernacle worship, describing God's plan of salvation.

This book explains each part of the Tabernacle-

In the ancient Near East, where cosmos and cult were of a piece, temples were the architectural embodiment of the

cosmic mountain. This monograph explores how the mountain narratives of the Hebrew Bible canonically preceding the establishment of the tabernacle cultus may therefore serve to prefigure that cultus. Examining the creation, deluge, and exodus accounts in light of cosmic mountain

ideology, the study develops a cosmogonic pattern of being delivered through the waters to the mountain of God for worship. As a symbol for approaching the divine Presence, this pattern is ultimately cultic, and includes a gate liturgy running as an undercurrent through each narrative. Moses

alone, for example, is permitted ascent to the summit of Sinai, a role later mimicked by the high priest's annual entrance into the holy of holies. From Adam's descent of the holy mountain to the high priest's "ascent" of the architectural mountain of God, The Tabernacle Prefigured makes a compelling case that to

design details, who did the work, and how the Tabernacle was constructed. Much of that information is found in dozens, maybe hundreds of other books about the Tabernacle. But there are details setting this book apart from every other book written about the Tabernacle. This book takes a verse by verse,

story by story, chapter by chapter look at the Tabernacle. In other words, this book presents a picture of the Tabernacle from God's point of view. Which the beginning of this series pointed out, is much different than any human perspective.
